Product information

Name of product/version	Crumb & Co. Bakery website
Report date	September 28, 2026
Product description	The public website of Crumb & Co. Bakery (a fictional business on a demo site).
Contact information	hello@example.com
Evaluation methods used	- Automated content checks (69 checks) on 15 published pages. - Automated live page checks of the rendered page, including the theme, on 10 pages. - Guided manual checklist (a check for each WCAG criterion a person has to judge: keyboard, zoom and reflow, screen reader, forms, media, motion, touch and more) recorded on up to 4 pages.

Applicable standards and guidelines

STANDARD/GUIDELINE	INCLUDED IN REPORT
Web Content Accessibility Guidelines 2.2	Level A (Yes) · Level AA (Yes) · Level AAA (No)

This is the WCAG edition only. Revised Section 508 and EN 301 549 tables are not included; their web content requirements refer to the WCAG level A and AA criteria below.

Terms

Supports	The functionality meets the criterion without known defects, or meets it with equivalent facilitation. In this report it requires a passed manual check, no failures found by automated checks, and no automated finding still waiting for review.
Partially Supports	Some functionality does not meet the criterion.
Does Not Support	The majority of functionality does not meet the criterion.
Not Applicable	The criterion does not apply to the content evaluated.
Not Evaluated	The criterion has not been evaluated, or not enough to report a level. The VPAT reserves this term for level AAA, so these rows need evaluating before this report is complete.

Of the 55 level A and AA criteria: 7 supported, 6 partially supported, 0 not supported, 1 not applicable and 41 not evaluated.

Table 1: Success Criteria, Level A

CRITERIA	CONFORMANCE LEVEL	REMARKS AND EXPLANATIONS
1.1.1 Non-text Content (Level A)	Partially Supports	Automated checks found 4 failures. Pages affected: 4 of 19 checked. 4 possible issues still need human review. Pages affected: 4.

About this report

This report documents how the product conformed to WCAG 2.2 levels A and AA when it was evaluated, using the methods listed above. It is not a certification, and it does not guarantee that the product is free of accessibility barriers or complies with any law. Content changes after the report date are not reflected.

Automated checks can find only part of what WCAG covers. Levels are based on the evidence recorded: a criterion is reported as supported only where manual testing confirmed it and automated checks found no failures; criteria without that evidence are reported as not evaluated.

VPAT® is a registered service mark of the Information Technology Industry Council (ITI). This report follows the structure of the VPAT 2.5 WCAG edition.
